Mike Manthei

Old and New Business:

- The meeting minutes for 6-9-09 were approved as submitted
- It was noted that the secchi disk depth (water clarity) was 9 feet on 10-10-09 and that this was much better than usual
- Paul Swan noted that SLIA's annual Non-profit Corp. registration has been renewed
- Mary noted that on 9-30-09, SLIA's operating and weed treatment account balances were \$3,884.50 and \$4,848.10 respectively after refunds were sent out in 2009
- Mike noted that there appeared to be very little Eurasian Water Milfoil left in Silver Lake
- Mike agreed to call the DNR for a 2009 post treatment evaluation report
- It was noted that the currently marked locations for fishing platforms in Joy Park appeared well placed, and that SLIA feels that additional fishing platforms should be placed to the east of the boat launch area
- It was also noted that there is an area of heavy silt build up at the Dorothy Park storm sewer inlet and that dredging of the bay near Dorothy Park should be considered for improved lake access near the canoe rack

Next Meeting:
